[Thurston]

Like girl come walkin' thru the cornfield  
Like blue vibration thru the sea  
I know I'd love her to breathe, again  
Like cubes are talkin' her down

I've been a wasted day  
Like spinning round a saint  
Like colored wild sign  
There'sa talkin' in the rain

Like girl be growin' thru town  
Windows are thoughts in the stain  
I know I'd love her to stay  
Whispering signs are agreeing

Like talkin' golden terrain  
Like thrivin' dark in the saint  
A cat in gold goes along  
There'sa's sound for the king
