Love starved backwood teaser farm girl hot eyed bride  
Stone cold blonder a quivering menace atomic wallop  
wholesale murder

We want out  
We fish at night  
Sex in Heaven  
A tough town  
A cruel touch

Sailors leave  
Sirens screaming  
Lap of luxury  
A show of violence

Take off your mask  
Lay off my brother  
Kiss my fist  
Stop at nothing

A steaming swamp  
And a troubled heart  
The sky is red  
And I can't stop running

Her baby stares  
The secret's there  
So help us God  
I'll swing at your funeral

The stubborn air  
The killer Mob  
A red bone woman  
A double cross

Big fake bitter love underbelly freezing jungle  
One step more he'll stir your senses  
Scratch your surface and nail your head

Murded Angels  
Bodies in bedlam  
A women scorned

You can't hang me

I Tied to my job a blast scene alibi  
Tied to a tree in a blind alley

Nothing before  
A big fear  
Don't get caught  
By her father's friends

Swamp girl faded  
The tiger's wife  
A frenzied love  
Hot climate

A twisted passions  
Flesh parade  
Dead ahead  
A world so wide

Big river love camp  
The house boy and hill girl  
The agony column

Don't crowd me  
It's time for crime  
Strange breed river girl's misery index

Inside my head my dog's a bear  
She's significant  
I'm insane

Inside my head my dog's a bear  
She's significant  
I'm insane

Inside my head my dog's a bear  
She's significant  
I'm insane

Inside my head my dog's a bear  
She's significant  
I'm insane
