Look into my eyes, don't you trust me?
You're so good, you could go far
I'll put you in a movie, don't you wanna?
You could be a star, you could go far

You've got twistability
You fly hard, don't you wanna?
You've got kissability
You could be a star, it ain't hard

You're driving me crazy, smell so sick
You're driving me crazy, give us a kiss

Look into my eyes, don't you trust me?
You're so soft, you make me hard
I'll put you in a movie, don't you wanna?
You could be a star, you could go far

You've got kissability
You sigh hard, don't you wanna?
You've got twistability
You could be a star, it ain't hard

You're driving me crazy, you smell so sick
I feel so tired, you make me sick
You're driving me crazy, I feel so sick
You're driving me crazy, give us a kiss

Look into my eyes, don't you trust me
You're so good, you could go far
I'll put you in a movie, don't you wanna?
You could be a star, you could go far

You've got twistability
You fly hard, don't you wanna?
You've got kissability
You could be a star, it ain't hard

You're driving me crazy, smell so sick
You're driving me crazy, give us a kiss
