[thurston]

One two, one two, one two titty

I know every nook and cranny in new york city

We're ciccone and that's enough

I'm the royal tuff titty and you gotta taste my love

Taste my love

Yeah

Meeeh

Come on everybody and rock with me

I am the one on the christmas tree

Now working at the word like a moving storm

Now walking up the stairs and cookin' up the [board?]

Trippin' everywhere I don't fucking care

Put on some dark eyes and waving goodbye

Yooo
