1988, 10/19, john peel session, bbc radio one
Notes: the fall cover

[thurston and lee]
My new house
You should see my new house
My new house
You should see my new house

I don't know that much about it
I bought it off the baptists
I get all the bills
And I get pissed
Damn I'm falling off a bill (?)

Hmmmmm
(ok chorus)
I can't stand a place that's really common like this
(?)
I can't stand a place that's really common like this
(?)
My new house
You should see my new house
Keep away from my new house

It's got yr drier in the middle (?)
It's got a window sill

Hmmmmm
(ok good)
.... to the middle of us (?)
.... to the middle of us (?)
My new house
Where the beatniks hang out
My new house
You should see my new house

I care care about...
She won't grow up to be a problem
I don't have...
Won't grow up to be a problem
My new house

You should see my new house
My new house
You should see my new house

Sometimes I think I'll ring up swine tax (?)
And go back to my flat
Sometimes I think I'll ring up swine tax (?)
And go back to my flat
My new house
That's one bad thing about it
According to the postman
It's like the bleeding bank of england
According to the postman
It's like the bleeding bank of england

Creosote to my fence surrounds it (?)
No razor blades decks and a couple of decks (?)
My new house
You should see my new house
My new house
...what it's all about (?)

There are rumour flying
About a little haunted pillow
Mr. rythem ... coming with me (?)
Mr. rythem ... coming with me (?)
And he plays with his psycho radio
In my new house
You should see my new house
My - new - house
You should see my new house

You should see my new house
My new house
You should see my new house
