Sweet temptation came today
Time for angels to kneel and pray
I saw you hangin' with the devil
Evil nature, frozen grave

Renounce your lies, sweet succubi, oh, no
I don't care, I don't wanna hear it
'Cause I'm not talkin' to you no more
And I'm never ever gonna shadow your door no way,
hey, hey
There's just no way, hey, hey, no way

You know you hurt me once
And you know you'll never hurt me again
'Cause I'm sick of all your games
You can't trick my love with sin

Sinners lie I will never die, I said no
I don't care, I don't wanna hear it
'Cause I'm not talkin' to you no more
And I'm never ever gonna shadow your door no way,
hey, hey
There's just no way, hey, hey, no way

Sweet temptation came today
Time for angels to kneel and pray
Your black wings are bound in chains
As I swoop into your grave

Werewolf commandos, poison tongue, I said no
I don't care, I don't wanna hear it
'Cause I'm not talkin' to you no more
And I'm never ever gonna shadow your door no way,
hey, hey
There's just no way, hey, hey, no way
