Society is a hole
It makes me lie to my friends
It's running down my street
With white Power sneakers
On the beautiful
Beat of black feet
Society is a hole

It beats my friend's big heads
My friends have big head
I can understand it
But I don't recommend it
You got big big hair
And everybody is scared

Society is a hole
It makes me lie to my friends
The assault of holy noise
There's a slap in my face
My friends are girls, wrapped in boys
We're living in pieces
I want to live in peace
Society is a hole

She alright
Ahh one song and
All [inaudible] and
[inaudible] right
Ohh ask the one tonight
The one song
That works out of our mind right
Our way
