Lights on the stones on backed up drain
What lovers list on languid stain
We've come together to gather stars
Shooting up stones our powdered hearts

Dead or alive, there's danger
The dead are all right with me
We're not gonna run away
We're not gonna leave you stranger
Turn the light on your lonely love

Camera on the haunted stones
Bloodshed a gentle painted score
Notes dance in ink across your skin
Hieroglyphic lover, nature friend

Dead or alive, there's danger
The dead are all right with me
We're not gonna run away
We're not gonna leave you stranger
Turn the light on your lonely love
