Hey now,
what's the news I hear
you've been seen walking blue
I know
we're all confused, it's true
I know you feel the same way

Everything we see is clear
everything we feel

I'm here to let you know
all we need to do
is just to just let go
you've heard we're born to lose I know
but don't start to think that's really true
you've got the walking blues today
but soon we'll stand and let the music play

Everything we dream is clear
everything we need

Let's say
you and I we find
something hard to hold
let's keep it in our minds
and let it fill our days
never sleep and find we've let it stray
now we're in for the long ride
we can let the rest slip aside

Everything we see is clear
Everything we feel is clear
Everything we dream is clear
Everything we see, is clear
