[Kim]

Hey, give me hollow stimulation  
It's so sleazy to be free  
Let's invest in dull creation  
Thrill city, cheap legacy

What a waste  
You're so chaste  
I can't wait,  
to taste your face

Private signals lead me to you  
A sublime, spectacular dud  
Safe and sound from childhood confusion  
Get the picture? Yes, it's clear as mud

What a waste  
You're so chaste  
I can't wait,  
to taste your face  
Hey, give me hollow stimulation  
It's so sleazy to be free  
Let's invest in dull creation  
Thrill city, cheap legacy

What a waste  
You're so chaste  
I can't wait,  
to taste your face

I wouldn't lead you on  
Ever since you saw me  
You could of had it all,  
but you didn't call me
