Sing your children
Your children song
Sing your child love
Love is on

See thru child eyes
Eyes are old
And old is magic growing
See the child lights
Spinning gold

Everyday girl
They blow away
Leaves falling to the water
Wildflowers
For you today

Sing your birthday
Your birthday blues
Sing your wild light
Wildflowers bloom

They will not forget you
And down, they go
To sleep, so slow
Away, they grow, they go

I wait, I wait all day
I wait, I wait all day
I wait, I wait all day
I wait, I wait all day

Sing your child love
Love is on
Sing your child lights
Sing your child lights
Lights are gold
Sing your child life
Wildflower soul
