Verse1

Girl

You know I've been here searching for your love so
long babe
Never knew that you would stay here to the morning
Just the sight of you it makes my heart jump on it
It means you girl
I want it

PreChorus1

Nothing seems to face me
I want your mind and body
Girl you make me feel
Your all I need
I want your loving
Tell me what to do uh baby

Chorus

Not gonna leave her alone
She's so good it shakes my bones
Never thought I'd find this girl
I'm so glad she's here
Not gonna leave her sight
Love is like my paradise
Come give me my kiss tonight
Hello you my dear

Verse2

Girl

I gotta feeling your just here for some attraction
Wanna get up in your head to build vibrations
Cause I need to know is this the right decision
Girl I really want to be with you

PreChorus2

Follow my heart baby
It's traveling to you
If only we can say
What we want too
Don't be shy
I just want you baby girl

Bridge
You got me uh so bad
I need to know if
You can be my girl
Make it last forever
You and me till never
It just feels so right
Girl you change my life
Yeah

I just want you baby
Cause I just want you baby
I just want you
I just want you baby girl
