When you say love
You're telling everyone your moments come
And you found what you been lookin for
When you say love
You've said the only word that tells the world
You never will be lonely anymore

You've got a pretty rainbow of your own And at last youve found your pot of gold You're completely satisfied A feeling of contentment fills your soul

When you say love
It means you found your special one
And that you care enough to give your very best
When you say love
There's not another word that says so much
Cause that four-letter word means happiness

Your heart is given wings to touch the sky Higher than the eagle dares to fly If you took everything youve heard Tried to make a magic word You'll find you said it all when you say love

When you say love
It means you found your special one
And that you care enough to give your very best
When you say love
There's not another word that says so much
Cause that four-letter word means happiness

Your heart is given wings to touch the sky Higher than the eagle dares to fly If you took everything youve heard Tried to make a magic word You'll find you said it all when you say love You'll find you said it all when you say love

When you say love Da When you say love
Da When you say love
