(charlie parker tune: Eddie Jefferson arrangement)

Verse I

I never thought you'd be, so awfully close to me.

Until I heard the message that after set me free.

That made me want to linger, want to hang around.

Better understanding of these different kind of
sounds.

Back in '42, Bird came to New York and blew, my but he
blew...

Verse II

Come reminisce with me, and think about the Bird.

Remember everything he did and all the things you
heard.

Oh, don't it just amaze ya, gets ya down inside...

To think of how he had to live , then the way he died.

Life was so unkind, cause now would have been his
time....now was his time.
