I got a head full of drunk and a dick full of horny  
So high my behaviour's appalling  
It's somewhere between 3 and 4 in the morning  
And my feet and my legs are unsteady on the floor, I'm  
a  
Start drawing conclusions and walls with my dinner  
If I don't stop drinking now  
I got a sinking feeling I'm sinking down  
In the back club where the music's too loud  
I move round just to talk more shit  
With the fellas at the bar and we all laugh loud  
All scared that we'll never find the love of our life  
But prepared to accept some love for tonight  
I got friends in relationships who don't pay for kicks  
Who don't deal with this  
I wish sometimes I was just like them  
Til then well I'm single again and...

I see you standing there, tryna play it cool  
Tryna make a fool of all the boys who run around ya  
I'm not gonna play your games, I'm gonna do my thing  
I'm gonna do nothing cause I won't get played like that.

You got a body that could stop traffic  
I think you know it by the way that you carry it  
By the way I've been checking your tactics  
Something about you reminds me of plastic  
Lipstick packed on, looking the part  
Perfume on the neck and it's hitting the mark  
More weaponry than you'd ever find in Iraq  
Your smile fixed on like a kabuki mask  
You're at the bar and you're holding your glass  
All the men crowd around like a school of sharks  
You're trapped in glass like you're on display  
We're the prey in this state of play  
So yeah, I admit it I was checking you out  
Staring at you, girl tryna figure you out  
I've got my doubts let me spell them out  
It's to you that I'm singing to now

I see you standing there, tryna play it cool

Tryna make a fool of all the boys who run around ya  
I'm not gonna play your games, I'm gonna do my thing  
I'm gonna do nothing cause I won't get played like that.  
[x2]

You remind me of the pretty girls in high school  
Brain like a brick but a body like a rifle  
Such an eye full of beautiful curves  
But not so hot at trying to string together words  
Such a pretty girl such a pity girl  
You're the centre of attention in your own little world  
Your body's hot but your heart's stayed frozen  
You've had boyfriends but never got to know them  
The curse of the beautiful girl who knows it  
And every guy in this room's a possible opponent  
Yeah, I'm not gun laugh at your jokes  
When they ain't that funny I ain't like other blokes  
When they giggle and laugh, well it's all too apparent  
You're as fake as the {something} in the {something}  
I won't jump down, myself just to get in your pants  
I'm not Mr Smiley or Mr wild's filey  
Girl, be my guest do whatever you please  
Make a mess to provide your needs  
I won't read another script in your movie scenes  
And I ain't playing that cause it just ain't me

I see you standing there, tryna play it cool  
Tryna make a fool of {all the boys who run around ya}  
(backwards I think)  
I'm not gonna play your games, I'm gonna do my thing  
I'm gonna do nothing cause I won't get played like that.

I see you standing there, tryna play it cool  
Tryna make a fool of all the boys who run around ya  
I'm not gonna play your games, I'm gonna do my thing  
I'm gonna do nothing cause I won't get played like that.
