"Apathy Superstar"

Visit "[Apathy Superstar](#)" on MotoLyrics.com

Like you... I'm trying hard to get with you...

I guess I'm not so into you...

It's unfortunate I'm not used to any other space

Lately... I've been trying to erase me...

See I'm not into hating me

I've already been driving me crazy, but I can
concentrate

Reach me, 'cause I got you babe completely...

am I unsure? Absolutely

You contaminate me so well I believe you now

Truly I care about you so deeply...

God I wish I believed me...

I wonder you so much

I've been touched

I think everything's okay... I mean if everything's
alright...

almost everyone I know believes in God and Love...

So if everything's okay... I mean if everything's alright...

Well then Sympathy you should be the superstar that
you are

Just say so... Give the word and I'm Vertigo...

the existential Romeo

My emotions teach me well with... a God complex

Teach me... this anger tries to impeach me

and considerate idiosyncrasies damaged me so well

that I can't tell

'Cause I think everything's okay... I mean if everything's
alright...

almost everyone I know believes in God and Love...

So if everything's okay... I mean if everything's alright...

Well then Sympathy you should be the superstar that
you are

Dr. Strangelove you should be Dr. Estrangedlove...

everything that ever was

you're so lucky you get to be you and you're all the time

I do everything with you despite you

See I don't dance but I try to

Apathy knows you well 'cause you're a superstar

And everything's okay... I mean everything's alright...

almost everyone I know believes in God and Love...

So if everything's okay... I mean everything's alright...

Well then Sympathy you should be the superstar that
you are

(repeat chorus)

Oh Sympathy, you should be the star that you are

Oh Sympathy, you should be the star that you are

Sympathy, you should be the star that you are

Sympathy, you should be the superstar that you are
