"Faith In You"

Visit "[Faith In You](#)" on MotoLyrics.com

Dum da da da dum da da da dum da da doo da da da)

I don't kiss the future like the fortune tellers do

So I can't dream with you at night

Pessimism's hunger changes everything

I wish I

Walked with faith and not sight but

You know with anything you do

There's a hundred people bringing you down (bringing
you down) oh

No matter who you are

Don't let'em make you cause they'll break you

Don't let'em love you cause they'll hate you even more

When no one else

Believes in you

I'm completely yours

I've got so much faith in you

No matter what this life

Puts in front of you

You can save this world

I've got so much faith in you, oh

(Dum da da da dum da da da dum da da doo da da
da)

Anyone who knows you sees the renaissance in you

And I have to try and act surprised

"Prime demotivator" says my point of view

I wish I

Had some cheer to lead you to but

No matter how much good you do

There's a million people wishing you harm (wishing you harm)

I'm telling you

No matter who you are

Don't let'em make you cause they'll break you

Don't let'em love you cause they'll hate you even more

So if no one else

Believes in you

I'm completely yours

I've got so much faith in you

No matter what this life

Puts in front of you

You can save this world

I've got so much faith in you

(Dum da da da dum da da da dum da da (da ta da)
doo da da da)

Ooh

There's a million things that I could say to you oh

Ooh

Don't let'em change you inside

Because anyone who matters
Will try to understand who you are
If no one else
Believes in you
I'm completely yours
I've got so much faith in you
No matter what this life
Puts in front of you
You can save this world
I've got so much faith in you
(Dum da da da)
Faith in you
(Dum da da da)
Faith in you
(Dum da da doo da da da) oh oh
I got so much faith in you
(Dum da da da dum da da da)
I got so much faith in you
(Dum da da doo da da da)
I got so much faith in you
