Gold and silver have I none  
I can give you more  
Gold and silver have I none  
I can give you love

Don't have a gold mine or a mansion  
Haven't even got you a finger ring  
Deep in my heart there's a little secret now  
I'm gonna share it with you

Gold and silver have I none  
I can give you more  
Gold and silver have I none  
I can give you love

They can have the gold in Fort Knox Kentucky  
As far as we're gonna stand by love  
I knew a man once had lots of money cried every night  
for love  
I'd rather have a sweet girl's love than to hold a rich  
man's gold  
Don't have a penny in our pockets I know we're gonna  
live on love

Gold and silver have I none  
I can give you more  
Gold and silver have I none  
I can give you love
