Virginia was a "lot lizard" from F.L.A.  
She had a compound fracture in the "trunk"  
It started when she ran away  
Thumbs out on the interstate  
She hitched a ride to misery  
"Mr. Whirly" had a catastrophic incident  
He fell into the city by the bay  
He liquidated his estate  
Now he sleeps upon the Haight  
Panhandling misery  
He's gonna get high  
When he's low  
The fire burns from better days  
And she screams why oh why  
I said I don't know  
The catastrophic hymnes from yesterday  
Of misery  
Vinnie was a hustler out of Amsterdam  
He ran the drug cartel in "tinseltown"  
They found him in a cadillac  
Bludgeoned with a baseball bat in the name

Of misery

Gina hit the road to New York City

Mysteriously the night Vinnie croaked

She stopped in Vegas to elope

With Virginia and the dope

And kissed the bride eternally

And they<sup>1</sup>re gonna get high

When they<sup>1</sup>re low

The fire burns from better days

And he screamed why oh why

I said I don<sup>1</sup>t know

The catastrophic hymnes from yesterday

Of misery

Hell hounds on your trail now once again..boy

It<sup>1</sup>s groping on your leg until it sleeps

The emptiness will fill your soul with sorrow

Cause it<sup>1</sup>s not what you make... it<sup>1</sup>s what you leave

And we<sup>1</sup>re gonna get high

When I<sup>1</sup>m low

The fire burns from better days

And she screams why oh why

I said I don<sup>1</sup>t know

The catastrophic hymnes from yesterday

Of misery
