As the way under me moves  
The world sleeps so still before me  
I'm so excited to explore my new cells  
Where the moss and the bugs look like baby cities  
I invigorate my cells for you  
Invigorate my cells for you

As the course of my fingers  
Trail off from the glow of my arrival  
As my pores bid farewell to my pollutions  
Invigorating cells because of you  
Invigorate my self for you

When I close my eyes  
I know that I'm dreaming with you  
Though my heart is cold and heavy  
You know I wouldn't be here if it wasn't for you

When I look at the sky  
My tears run bliss from the view  
Though the road is wet from the rain  
You know I wouldn't be here if it wasn't for you

We slave for mockups  
Under the cage  
Where we absorb our earth  
For energy

Above doubt's snare  
We float  
Body, our mercy is weak  
Behold, a wolfpack

When I look at the sky  
My tears run bliss from the view  
Though the road is wet from the rain  
You know I wouldn't be here if it wasn't for you
