Just called to let you know, I gotta let go
Couldn't stand back and watch this
You went behind my back, threw us off track
And then that's when I lost it

Can't believe I kid myself, that you were ever worth it

Read between these lines a hundred times
And realise
There'll be no compromises
Not before I die
Or in another life
How'd we end up like this

When you made out with her
It's just like a blur
But it still plays in my head
And who will you become,
Now that we're done
Bet that I couldn't stand you

Can't believe I kid myself, that you were ever worth it

Read between these lines a hundred times
And realise
There'll be no compromises
Not before I die
Or in another life
How'd we end up like this
How'd we end up like this

How'd we go so wrong, go so wrong
How'd we go so wrong

Read between these lines a hundred times
And realise there'll be no compromises
Not before I die
Or in another life
How'd we end up like this
How'd we end up like this
How'd we end up like this

How'd we end up like this
