Broken glass straight through my heart
Feel like I'm lost in the dark
Voices are calling your name
Hours lost playing this game

Playing this game
I can forget about you
In this game
It don't matter 'bout the truth

I switch into another world
It's easier than getting hurt
I know I can reload
Cause I know I can reload
Reload (repeated)

In this game
I can forget about you
In this game
It don't matter 'bout the truth
In this game

In this game
I can forget about you
In this game
It don't matter 'bout the truth
In this game

Ah-oh
Ah-oh
