Close your eyes, the monster is still there
Feeling strong, feeding on your silence
Save yourself, from the man who stole your sweet dreams
Feel the need of living consciously
And truly free.

There's no reason you should hide
Heal the bruises of the past
Don't look back on what is lost
And live your life
Hatred is still haunting you
Close your eyes to reality
Cry your truth out loud tonight
The sky is yours.

Run away, I tried to hide the fear
Silently it's tearing up your soul
Pray your God, 'cause the monster is the man you love more
Than yourself and the need of feeling free and clean.

There's no reason you should hide
Heal the bruises of the past
Don't look back on what is lost
And live your life
Hatred is still haunting you
Close your eyes to reality
Cry your truth out loud tonight
The sky is yours.

You don't know what laughing is
You don't know what living is (what living is)
If you want, you can defeat the pain
And the emptiness inside your soul
Beneath the shame of memories
Your eyes can break the pain.

There's no reason you should hide
Heal the bruises of the past
Don't look back on what is lost
And live your life
Hatred is still haunting you
Close your eyes to reality
Cry your truth out loud tonight
The sky is all yours.
There's no reason you should hide
There's no reason to give up
If you want the sky is yours.
