Well they moved on down
And they crawled around
Walkin' sideways
Sideway walkin'
Give me the blues
And you start to scratch
When they start to hatch
Walkin' sideways
Sideway walkin'
Give me the blues
Oh, but when they start to bite
Then it's time you saw the light
For an appointment, I know
Before you start to scream
That's when you apply the cream
Blues ointment
Oh well the doctor said
"We got to make 'em dead"
Walkin' sideways
Sideway walkin'
Give me the blues

And when you start to scream
That's when you apply the cream
Blues ointment
And when they start to itch
You go out and take the bitch
For an appointment
Well you rub it on
And you rub it in
Stops 'em walking
Sideway walkin'
Give them the blues
Sideway walkin'
Sideway walkin'
They got the blues
Give them the blues
They got the blues
Give them the blues
