You learn to sing

You learn to play

Why don't the businessmen

Ever learn to pay

That's show business [Show business]

Show business [Show business]

Show business

That's the way it goes

You play in halls

Play in bars

You're climbin' walls

Chasin' stars

That's show business [Show business]

Show business [Show business]

Show business

That's the way it goes

You pay the man

You pay your dues

When it's all gone, ooh

You sing the blues

Show business [Show business]

Show business [Show business]

Show business

That's the way it goes

You wanna roll

You wanna rock

You find it hard

If your guitar's in hock

That's show business [Show business]

Show business [Show business]

Show business

That's the way it goes

You're smoking butts

They smoke cigars

You're drown in debt

They drown in bars

That's show business [Show business]

Show business [Show business]

Show business

That's the way it goes

You pull a chick

Take her home

No use, man

You're worn out to the bone

That's show business [Show business]

Show business [Show business]

Show business

That's the way it goes

That's show business, show business

That's show business, show business, show business

That's the way it goes

Know what I mean
