You've been smiling lately baby  
You've been singing in the bath  
You've been acting like a lady  
Not a dirty photograph  
Then tonight you came home early  
Packed a bag or two  
It's been worrying me honey  
Just what you're gonna do, ooh  
Stick around, yeah, stick around  
Stick around, baby, stick around  
Well you came on like a hurricane, hey  
About a month ago  
Blowing like a stiff breeze  
Always on the go  
All the good times that we had baby  
All stayed in the past  
All the good lays that I get  
Never seem to last  
Stick around, yeah, stick around  
Stick around, baby, stick around  
Come on baby, sit on this

What have I been doing lately  
To make you wanna go  
I take you out dancing  
Honey we can go out to a show  
Spend a night romancing  
Nights out on the town  
Listen to me baby  
You'll be glad you stuck around  
Stick around, yeah, stick around, oh honey  
Stick around, yeah, stick around  
Stick around, around, around, around, around  
Stick around, c'mon baby stick around don't let me  
down  
Stick around, yeah, stick around
