Ladies and gentlema
The moment
We all be waiting for
The main event
Give it up!
For the one
And only
Come in to the stage
D Rich
The time
The time
Has come again
To stand a breath
Of my mind
To stand
For what it's right
And four years
Have passed
And
How the time
It's wrong
Since we
Have won the battle
But the world
Will still go slow
But the dream
Is alive
And he see
The end
Tonight
We must never settle
Hope this
We must continue this.....
Take a jump to higher.....
Not
Looking backwards
We're thinking over
We're moving forward
We're moving forward
Hey ahhaaaa
It will work

It's filled
With so much pain
And the mid's of all
Cut future
This mid change
Won't work
To be done
We must not be
Sold to guns
For
We are our people
So keep the positive vibrations
To keep alive
To see the end
Tonight
For we must never settle
And hope
We must continue to stand
To go
To higher heights
Never looking backwards
We're thinkin' over
We're moving forward
We're moving forward
We're moving forward
Forward in the moment
We're moving forward
And we're moving forward
We're moving forward
Forward with the moment
We're moving forward
We're moving forward
We're moving forward
Forward with the moment
So
Dream it's still alive
The dream it's still alive
Forward with the moment
We're moving forward!
