"Anybody"

Visit "[Anybody](#)" on MotoLyrics.com

Anybody seen my baby girl
Anybody knows her name, oh no
I've seen your face one thousand times
A thousand times I've seen your face
I know how beautiful it shines
I've kissed your lips and hold your hand
But this was only in my head

Anybody seen my baby girl
Anybody knows her name, oh no
Somewhere in the world I know
She's waiting for me to show
Anybody knows my baby girl

So beautiful almost unreal
So beautiful almost unreal
It's the way you make me feel
This one way road that leads to you
It seems my dream becoming true

Anybody seen my baby girl
Anybody knows her name, oh no
Somewhere in the world I know
She's waiting for me to show
Anybody knows my baby girl

Anybody seen my baby girl
Anybody knows her name, oh no
Somewhere in the world I know
She's waiting for me to show
Anybody knows my baby girl
