Face to face with yourself  
Staring back at your own reflection  
Take in the flood and the overwhelming thought of  
infliction  
Every breath you take in eliminates every chance you  
may have  
Pushing everything to the edge

We are ' Coming undone  
You are ' Coming undone  
This is ' Coming undone

See the light shining through in this room  
This is light shining through to you

Come to me (turn and see me)  
Come to me (turn and see me)

This is your redemption (it's captivating)  
Can you feel it? (he is reaching for you)  
Will you see me? I will!

Take your hand, lead you through the darkness inside  
of you  
Take your hand, lead you through the darkness inside  
of you

Coming back to it all!  
Face to face with yourself  
Staring back at your own reflection  
Take in the flood and the overwhelming thought of  
infliction  
Every breath you take in eliminates every chance you  
may have  
Pushing everything to the edge

To the edge  
To the edge  
To the edge

And this my friends is an occasion

Rise to it!  
You must  
Rise to it!  
You must  
Rise to it!
