Every time I sing it's like  
I'm singing to no one and nothing at all  
Can replace what is missing  
You left me the victim but what does it matter  
It's here where you're lacking  
never get better

And every time you're hearing this song girl  
I'm thinking about you  
Please hold on  
If real love is forever, then forever I'll wait for... YOU  
(cause I miss you)  
Surrender your heart and just know that

I'll miss you  
Believe in this trust and never let go  
Cause I'm taking your pictures and holding them tight  
Cause I don't know when I'll be coming home

These conversations of heartache and distance and  
sorrow  
I know that you're hurting but I think it's killing me more  
And if all that you want is to be satisfied  
Then open your eyes cause baby I'm all  
That you need

tell me one thing did this make it better.  
Did you think of me and our time together.  
Cause I'm still losing sleep. Bring it together  
Always forever always remember Don't let go cause.  
I miss you.
