Fears in your head  
Devil's magic making deaths  
Every single one is afraid  
Some are going mad  
Are afraid of their own fears  
Going slightly fucking insane  
Children in the dark  
Who were already gone  
It's all in your fucking head  
Never let your fears  
Control over your mind  
It will make you mad

Fear of,   
Crushing babies  
The killing time  
Your powered by  
Fear of,   
Your hiding yourself  
Or being roped and  
Stabbed in the back

Devil's Magic!

Frustration and fear  
In the cold days and nights  
Everyone just wants away  
The way it happens  
Causes mind control  
Because the bitch just isn't real

Fear of,   
Crushing babies  
The killing time  
Your powered by  
Fear of,   
Your hiding yourself  
Or being roped and  
Stabbed in the back

Devil's Magic!

I am yourÂ fear!  
Frustation, Fear, Anger, Misery  
Frustation, Fear  
Let's stare into the distance  
Where there is nothing to see  
Approching at top speed  
There will be no savior  
Coming to an endÂ  
Of peacefull lifes  
Laughs fade away  
As fear impacts

Fear  
Sometimes you don't think somethings there, but there  
is out of your imaginationÂ  
Anger, sadness and misery  
Those are a few things thatÂ  
Could replace fear

Staring in distance  
Nothing to see  
Approching at top speed  
There will be no savior  
Anger, sadness and misery  
A few things thatÂ  
Will replace fear  
Coming to an endÂ  
Of peacefull lifes  
Laughs fade away  
As fear impacts  
Anger willÂ reign in you

Fear of, Â shredding work  
Crushing babies  
The killing time  
Your powered by  
Fear of, Â not being strong  
Your hiding yourself  
Or being roped andÂ  
Stabbed in the back

Devil's Magic!
