Things are too simple, things are too hard  
Nobody's happy with the way things are  
Looking for the quick fix, the short term loan

Got to rent 'cause you might not be here long enough  
to own  
Well, the way I see it the trouble with the world these  
days  
It's gettin' way to easy just to drive away

With you and me, baby, it's up and down  
We're moving the earth or we're on shaky ground  
We talk about forever when it's all going smooth

Or moving out tomorrow if things don't improve  
Well, the way I see it the trouble with love these days  
It's getting way too easy just to drive away

Because you can drive away if you've got half a mind  
to  
And half a tank you can drive away  
First sign of trouble first little thing goes wrong  
You can climb in your car and drive till you're gone

Whatever we've got, it's worth the risk  
To read a little promise into every kiss  
You pay for the music but you do get to dance

When you love somebody it's not that big a chance  
Well, the way I see it, we've got every reason to stay  
And every reason to go together if we drive away

We can drive away if we need to start again  
Baby that's okay, we can drive away  
Till we find that place where we can live on faith  
That we'll never again have to drive away
