Cotton balls between your toes, they're all lined up in a row

As you're paintin' your nails at breakfast time
It's the way you drink your juice
It's mesmerizin', it's no use that I
Ever try to get you off my mind

Come eight o'clock, I'm on the run
I can't believe, I get anything done

'Cause when I'm leavin'
It's the rear view mirror that helps me hold onto you
(I start thinkin')
About you baby, that's all I really want to do
(All day I'm dreamin')
Dreams about holdin' you when I get home
That's where I go from goodbye to hello, yeah

I can picture you right now singin' your favorite songs
out loud
As you're dancin' around while you're hanging up the
clothes
You're the apple of my eye
And this job ain't a good enough reason why I
Ever have to leave you alone

At five o'clock, I'm on the go
I've been waitin' since goodbye to say hello

'Cause when I'm leavin'
It's the rear view mirror that helps me hold onto you
(I start thinkin')
About you baby that's all I really want to do
(All day I'm dreamin')
Dreams about holdin' you when I get home
That's where I go from goodbye to hello

From when you kiss me goodbye
My head is in the clouds
'Til I come back around

When I'm leavin'

It's the rear view mirror that helps me hold onto you
(I start thinkin')
About you baby that's all I really want to do
(All day I'm dreamin')
Dreams about holdin' you when I get home
That's where I go from goodbye to hello

(I start thinkin')
About you baby that's all I really want to do
(All day I'm dreamin')
Dreams about holdin' you when I get home
That's where I go from goodbye to hello
Hello, hello
