You knew I would fall short  
Still you made me  
Still you gave me life

You knew the hairs on my head  
Even before you breathed breath  
Into my chest, and now that same chest aches  
For the praises of Your name Jesus

And what could I give  
Of worth to you Lord  
I would give my life  
As a sacrifice  
And still not afford  
What you've done for me  
Such a testimony  
To the power of your love

OHHHHHHhhhhhh!

I'm falling deeper in love with You  
Cause I've got nothing to give, but still you ask me to  
Give all in, Point me in the light of truth  
Give me the words to speak and watch me love like  
you've

Done for me  
Such a testimony  
To the power of your love

Eyes shut, arms open wide  
Kneeling before you Jesus  
I need your precious healing  
Eyes shut, heart open wide  
Spirit like water flow  
Spirit like water flow
