For freedom we are drawing the line
To Jesus we give our lives
He reigns in yours and mine

But with freedom, we are responsible
For His kingdom on earth to shine
That's the reason why

We gotta come come come together
We gotta welcome one another to his story
Because we make up all the parts
With one voice we give our hearts to one life

His feet will go
And His arms will caress
His heart will love
And His mouth will confess
His knees will bend
And His head will bow
His tears will form
And His Spirit will rain down

We've got to walk as one body now
Loving our world to show that
God is Love, and He is real

Because we make up all the parts
With one voice we give our hearts to one life

You are the King
You are the truth
With one voice we sing
We give our lives to You
You are the life
You are the way
With one voice we say
We give our lives to You
