### "Almost There"

Visit "[Almost There](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I'm still stressin but all in all I maintain  
And I'm just tryna live takin it day by day  
And whatever comes my way no matter what the  
extreme  
I'ma never let it come inbetween me and my dream  
I'm still pushin son, still strivin  
Workin my 9 to 5 and happy to be alive  
My daughter she's now five and man is she a jewel  
She's just about to be starting her first year of school  
And I can't believe how fast time passes  
When sand's trickling through the hands of the hour  
glass  
It's another year gone by a new century a new  
millennium  
And I wonder what lies ahead of me  
Was this music shit really meant to be  
Or am I just chasing a dream that's unreal and just a  
fantasy  
But the fact is the musical genes been passed down  
through my family  
So how can they be mad at me  
I'm just going where my heart takes me and I know they  
really love me  
But sometimes it's like they hate me  
And I don't want to have any regrets mom and dad for  
crying out loud  
I'm the only son y'all had

I'ma sail that ocean til I find that peace  
And keep looking til I find what I'm tryna reach  
I got things on my mind that I'm dying to teach  
And if you listen we can make a mission complete

I'ma sail that ocean til I find that peace  
And keep searching til I find what I'm tryna reach  
So many things on my mind that I'm dyin to teach  
I won't stop til my minds a peace I'm almost there

A lotta people must think Jess is depressed  
And my life's gotta be one heck of a mess but the truth  
is

Man I'm blessed with family and friends and a woman  
that I love to death  
And lately our love's been put to the test  
But somehow we stuck it out and through it all we  
progressed  
And I'm sorry if you ever felt neglected or disrespected  
I swear to god it was never intended  
And even though I had a child by another girl  
You were still willing to let it be a part of your world  
And for that I give you mad respect you're my life  
And I'ma make you my wife and promise you paradise  
Cause loving you's been like a dream come true  
All I see in my future is me and you  
And a family with lots of love, hopes and dreams  
And a palace big enough for a king and a queen

I'ma sail that ocean til I find that peace  
And keep looking til I find what I'm tryna reach  
I got things on my mind that I'm dying to teach  
And if you listen we can make a mission complete

I'ma sail that ocean til I find that peace  
And keep searching til I find what I'm tryna reach  
So many things on my mind that I'm dyin to teach  
I won't stop til my minds a peace I'm almost there

Dad's stressing me about a better job and my fear in  
destiny  
And questioning me about god and I wonder about the  
after life  
I'm kinda scared cause I keep making that sacrificed  
and put god first in my life  
I used to only pray when I was troubled or when I  
needed help  
Or when I was hurt or when I struggled but nowadays  
I count the ways that I'm blessed being able to walk  
to being able to take a breath  
Cause you know life ain't shit to fool with  
You see the changes and the strangers and people you  
went to school with  
There's insane people that you used to be cool with  
But last time you seen them they were caught up in  
some bullshit  
For not being the parents that their children need  
And once promising athletes who smoked too much  
weed  
And some others who didn't even know they had  
another seed  
Get ya head where it needs to be  
Ya feel me cause if not we'll all self destruct  
Life's like a big gamble and sooner or later ya outta

luck

Challenge you to be better then what you are today  
were so close yet so far away

I'ma sail that ocean til I find that peace  
And keep looking til I find what I'm tryna reach  
I got things on my mind that I'm dying to teach  
And if you listen we can make a mission complete

I'ma sail that ocean til I find that peace  
And keep searching til I find what I'm tryna reach  
So many things on my mind that I'm dyin to teach  
I won't stop til my minds a peace I'm almost there
