Wake up you're smarter than that
The same problem always comes back
You've avoided it for far too long
Now's the time, Gotta stand strong
You've put up with enough of this shit
And all the stress got you physically sick
But you hide your emotions well
Nobody else can see that you're living in hell
You deserve more than what you have,
You know that, yet you keep coming back
Don't keep on repeating the past
Time to come out from behind the mask
You were hoping the pain wouldn't last
Praying that a miracle would happen fast
But the truth you've always known
Nobody can do it for you, you're on your own
You can't fix what you did not break
You can't kill what you didn't create
It's time now make your escape
Don't stay and make another mistake

If you search your heart and soul
You'll find the answers that you've always known
It's time now take control
The future is ahead grab the wheel and go, Come On!

You know what you have to do
You know what you have to prove
You ain't got to live inside this hell no more
It's time now don't be scared
Keep movin' you're almost there (Come on)

Yeah, Let's go, Yeah
They treat you so unfair
Most days it seems like no one cares
In the evening you're the last one leaving
Come the next morning you're the first one there
You put in way more than you get paid
Stressed out, used up all of your sick days

And suddenly you're feelin' a bit strange

You got the urge to take a risk and make you a big
change
Cause everyday is so hard to get through
You wonder if you left if they even would miss you
And you don't want to be unemployed
But you searched and you couldn't find an ounce of joy
So sick of feeling like you're locked in jail
So from this day forward you are not for sale
It's time to get up out this hell
Forget a two weeks notice man, it's time to bail
You can't go on living this lie
And you can't deny the feelings that's living inside
Here's your chance go give it a try
You got a pair of wings, now spread 'em and fly

If you search your heart and soul
You'll find the answers that you've always known
It's time now take control
The future is ahead grab the wheel and go, Come On!

You know what you have to do
You know what you have to prove
You ain't got to live inside this hell no more
It's time now don't be scared
Keep movin' you're almost there

I know what I have to do
I know what I have to prove
I ain't got to live inside this hell no more
It's time now don't be scared
Keep movin' I'm almost there

I know what I have to do
I know what I have to prove
I ain't got to live inside this hell no more
It's time now don't be scared
Keep movin' I'm almost there
