Since I know what you hide
any secret 'bout the face in your eyes
Yes I go, that's my way
any time it's like I'm speakin too loud
Ooh

So I try to relax
I watch TV
I have dreamt of a girl
just like was it real
I guess so in this life just to waiting for you

One more time I see your face in a photograph
One more time the barricades are fallin'
One more time please give me a reason
you'll be kiss me one more time

One more time I see your place in the underground
One more time obsession in my head
One more time I'm dying and waiting
Waiting for the vision of you

Time...one more time...one more time...

So I try to relax
I watch TV
I have dreamt of the girl
just like was it real
I guess so in this life just to waiting for you

What you want , it is hard
Then I hear you and you are thinkin' aloud
Yes I know when I see
'cause the one can satisfy all your dreams
