

## Son Volt

### "Angel Of The Blues"

Visit "[Angel Of The Blues](#)" on MotoLyrics.com

(Verse)

Drifting and turned, double edge dance  
Hearts burn with the wind to find their way  
Words that connect, never gain enough traction  
Thus forever blown astray

(Chorus)

And there was never any doubt  
Plans to make carried out  
Time keeps slipping through  
Angel of the blues

(Verse)

Medicine and blood, all the strands that collide  
Pour down lessons of youth  
A ghost to believe in, bolts and bone to survive  
Outbound tells burden of truth

(Chorus)

There was never any doubt  
Plans to make carried out  
Time keeps slipping through  
Angel of the blues

(Verse)

The Mississippi river, magnetic engines roar  
Sad songs keep the devil away  
Chances are it's a given  
That it was time all along  
Miles keep knocking at the door

(Chorus)

There was never any doubt  
Plans to make carried out  
Time keeps slipping through  
Angel of the blues
