

Son Volt "Flow"

Visit "[Flow](#)" on MotoLyrics.com

Wasted air, breathe so low
Same old politics of show
Just don't find it the same as I leave it

Still in the flow
Still in the flow and I'm low to the ground

Just wanna bring it about
Already seen from the inside out
Varied change, in the words of the weatherman

Still in the flow
Still in the flow and I'm low to the ground

All control is out, spinning
A new beginning, tracking and finding
Look what we have

Talks resumed, strike avoided
Political mood winding down
Hearts and minefields and three's a charm

Still in the flow
Still in the flow and I'm low to the ground
Still in the flow and I'm low to the ground
