"Make Out Club"

Visit "[Make Out Club](#)" on MotoLyrics.com

You were the very first one
You were the first one

you are the very first one making out all over me
you set my nervous hands are(?)
so take me more,
you'll take me

you were the first one
and i'd like to say
you were the first one
and i'd like you to stay

when i met your story love
your lucid eyes came to life
come on down to my depot
you tell me more and i'll tell you more

you were the first one
and i'd like to say
you were the first one
and i would like to say

take is down
down on the floor
it's piping hot
let's move it more
temperture is very cool
and i was sure
that i would feel like

you were the first one
and i'd like to say
you were the first one
and i'd like you to stay

you were the first one
and i'd like to say
you were the first one
please please please go away

you were the first one
i love you someday
you will be the last one
please come back someday

you were the very first one
you were the first that i ever did

all the time
and all the day
into your eyes, deeper the day
(???)
kiss me more and i will kiss you more

you were the first one
and i'd like to say
you were the first one
and i'd like you to stay

you were the first one
i love you someday
you will be the last one
please comeback someday

number one
the very first one
