"Middle"

Split yourself down the middle
Take one half away
Make one seem the bad so
The least can have it's way

Split yourself down the middle
Make one side the past
And you're left with the future
And maybe it will last

Sell all of your burdens
Keep all of your prayers
And then say goodbye to the life that got you here

It isn't as easy as I thought it'd be
Choosing the side that is everything I need

Split yourself down the middle
Take one half away
Make one seem the bad so
The least can have it's way

Split yourself down the middle
Make one side the past
Now it's the future
And baby, it will last
