Looking down they're rising slowly
Veins that use to hide now showing
Blood that shows no sign of slowing
It's Your love inside me growing

Can You feel my heartbeat pumping
Can You feel my heartbeat pumping

It's rushing through my veins
A love I can't contain
My heart will soon give way
It's nothing I can fake
Your blood has sealed my fate
As my heart begins to break

Your love's breaking in my heart again
Your love activates adrenaline
Your love's shaking underneath my skin

My heart is beating through my chest
Will it explode let's take a guess
It's pumping harder every breath
This heartbeat started with a death

Can You feel my heartbeat pumping
Can You feel my heartbeat pumping

Can you hear it
Can you see it
Can you feel it
My heart it beats for you
It beats for love
