"Bring Them All"

Visit "[Bring Them All](#)" on MotoLyrics.com

Shine into the darkness
Shelter all the cold
Father all the orphans
Give life to the old
Go into the cities
Harvesting the fields
Go seek out the hungry
Where the pain s real

Bring them all to me
Call them by their names
Love them one by one
Do not be ashamed
Go and find my children
Go and set them free
Tell them that I love them
Bring them all
Bring them all to Me

Go across the desert
Go across the sea
Go across the border
Walk across the street
Touch and heal the lepers
Search and find the lost
Show them what My love is
Go despite the cost

Go proclaim salvation
Go and bring good news
Go and make disciples
Go without excuse
