Verse 1:

Laying on her bed, a gasp in every breath
The people that surround her speak of what she meant
Voices slowly fading, her Maker she would meet
Eternity was waiting, her soul would be complete

Chorus:

She would hear Him say
He would say, "Well done, good and faithful one" (2x)

Verse 2:

The presence that consumed her made her soul to fly
When Jesus called her name out holding up the Book of
Life
The war was finally over, the race is now complete
The treasure that she stored up is now laying at His
feet

Bridge:

His will for her she carried out as she went through life
unseen
And all the heavens talk about how this servant lived a
dream
The hope that someone gave to her made her realize
The secret to her happiness was the giving of her life
