Let me go

You hold me down
Please, you let me go
I'm dying to be out on my own
And I think I might go crazy
If this lasts any longer

You tell me this
And you tell me that
I'm trying to tell you
Where I'm at
And I think I might go crazy
If this lasts any longer

Oh yeah
I want to let you know you got to
Let me go
You got to let me go
Yeah you got to
Let me go
You gotta let me go
Oh you gotta let me go
And I'm just trying to
Let you know
So please let me go

I've been on my best behavior
What more do you need
I'm not a savior
And I think I might go crazy
If this lasts any longer

You might think you're misunderstood
But I'm tired of acting like I should
And I think I might go crazy
If this lasts any longer

Oh yeah
I want to let you know you got to
Let me go
You got to let me go

Oh you got to
Let me go
You gotta let me go
Oh you gotta let me go
You know I'm trying to
Let you know
So please let me go

Well I love you and I need you
But I've got to get away
Give me space and I won't mind
When you want me to stay
And I resent the fact that I need you
You got to let me make mistakes
Give me time out on my own
We won't have too much heartache

And I said oh
I wanna
Let you know you got to
Let me go
You gotta let me go
Oh you gotta
Let me go
You gotta let me go
Oh you gotta
Let me go
You gotta let me go
Oh you gotta
Let me go
Oh you gotta let me go
You gotta let me go
I'm just trying to
Let you know
You gotta let me go
