D.Prosper, Jay Electr

all here the rap guards but we show respect
we on deck, do the damn thing shining like the gold ..is
black kings
we know the flow is cold as ice,
top beat em in the hell with that tumble in back
to go his back matter of fact on..
pick up just blaze Mike ..Johnny audible
teach you on wheels, Steve goin to camera,
do the jet quick, han it with the hammer,
hendin that thought put the block on you spenders
whip me on questions you know who the man is
son on that sunrise, sons who burn like the sun do
might check 1 2 respect when I come through
move like royalty so ..your majesty,
bright it so the hundred beans stars and galaxy,
I spit venum, haters sower like..
and integrated new dimension through the one
holdin' in the blow to the spot,
the damn who seat bomb in the master..rock the all the
mess like the..
I'm in a high..shaved on..
know that I'll be focused man disciplined like Bruce Lee
damn right, hold tight, black fish, dark night,
real revolution every rap is the proper tight,
..to interrupt, yeah homie that's for ..
DNA origins black ..tell a friend Lucy
three millions years on the skeleton
oh life just scared to trembling
see me on the club, getting more love than wembling
and I'm planning of this best man, f*ck what you heard
but...is absurd.

I need money, I used to be a thick up kid
so I payed of all the previous things I did
and all of the mysterious things I hear
should've died in 90 never seen my kid,
it's late to..risky shots anonymous,
but review shows no one there the marvelous,
go Ramadan for rhyme...it could save me the way the
DJ there are

jave them all, ...
no church, no holy, water no cube no mass in the oil
I leave the way in the way I can
go medal, ..waved in my cain,
the party people all say my name,
black our body, civilized the 85 right there in the lobby
for jail
JFK to hobby
I..do it, it's kinda like this
everybody in my..is like a flying dust,
I drop palms like a scientist,
I drop palms like a scientist,
they elect this.. as I get older
I measure with the heat, that's made by sola
I represent the UPT Mack know you
ten men floating in my ten can
made your time the bomb told,
a ..f*ck the sound control...

I am the greatest
