I tried to understand but I just hurt you instead  
And now you're giving up and say, ?It's really not worth  
it.?

And I know it must be hard when you're so forgiving  
When I'm always taking but I'm never giving

Oh, I try to understand but I just hurt you instead  
Oh, I try to understand but I just hurt you instead  
Are you happy now?  
Are you happy now?  
Are you happy now?  
Are you happy now?

I tried to open up, let go  
But you said I was holding you back  
Has the last year really been as bad as that?  
I know I tend to forget when you're not there  
All I remember is  
How much you liked it when I ran my hands through  
your hair

Oh, I try to understand but I just hurt you instead  
Oh, I try to understand but I just hurt you instead  
Are you happy now?  
Are you happy now?  
Are you happy now?  
Are you happy now?
