She said it's all
You've got to feed the babies with the money we make
My heart is gone the day it died it said
Enough with love, enough with love
We are here tonight
In the middle of a cinema waiting for my eyes to get so
crystalized

And she's standing on the window holding on the
phone
Barely naked, I stare at her with this pervert eyes...
Ohh couldn't fall in love

Juro juro ante el diablo y dios que no te voy a dejar ir
tan facil
So we'll bury them all

I know I'll never be the last to know
I never have had any pact with god
I'll never be again in home cause home is
Where the heart as I've been told

Juro juro ante el diablo y dios que no te voy a dejar ir
tan facil
Yeah looking for

And these kids I hope they never became the thing I am
Stay out of drugs, keep out from alcohol
Cause too much liquor on the blood
Girls are having too much fun and also getting un
conscious

And she's standin on the window holding on the phone
Barely naked, I stare at her with this pervert eyes...
Ohh couldn't find a love

Juro juro ante el diablo y dios que no te voy a dejar ir
tan facil
