Baby gets what baby wants

1, 2, 3 loose all the pretty faces
drop all the fancy places
Hear how my heartbeat races

4, 5, 6
I think I've found a stayer
Here comes a brand new player
This one must be for real

You know how the story goes
We're getting close
Coming on like a heart-attack
Come on, come on now
I'm gonna change history
I'll make you stay with me
I'll work you from night to dawn:
Baby gets what baby wants

And when the weekend 's here
We'll disappear
I show you all my sights
Come on, come on now
Are you ready to redefine
your precious time?

I want you from dusk to dawn
And baby gets what baby wants
